

Product Overview

These protective glasses feature Ultra Clear technology with dual-coated lenses to reduce glare, fog, and static-ensuring clear visibility in intense environments. Designed with a wrap-around frame and a patented self-closing top seal, Clear Shieldz provide added fluid protection and a secure fit, even over prescription glasses. Made from latex-free materials, they're ideal for clinical, lab, or procedural use.

Features and Benefits

- Ultra Clear Lenses: Maintain optical clarity in high-intensity procedures.
- Top-Down Seal: Prevents fluid intrusion with a self-closing design.
- Clip-On/Off Mechanism: Enables easy lens changes or cleaning.
- Smudge-Free Handling: Colored top strip minimizes fingerprints during adjustment.
- All-Day Comfort: Lightweight, secure fit reduces pressure and slippage.
- Safe for All Users: Latex and rubber-free construction for universal wear.
