

GAUZE PADS:

Gentle Absorption for Effective Wound Care.

Unwavering Comfort for Every Wound's Journey.

Woven gauze is a versatile medical fabric available in different ply configurations such as 12 ply and 8 ply. Our 12-ply gauze offers a thicker and more absorbent option, ideal for wound care and dressing changes where higher absorbency is needed. On the other hand, our 8-ply gauze provides a lighter option suitable for minor wounds and general medical use.

GAUZE PADS: Soft, Sterile Care for Every Healing Step.
