

MedEase Pull Up Diaper

Maximum Absorbency | Secure Fit | All-Day Comfort

Product Overview

MedEase Pull-Up Diapers are designed for adults who need maximum absorbency with a discreet, comfortable fit. These premium pull-ups offer superior dryness, freedom of movement, and reliable leak protection. With a soft, stretchable design, they provide all-day wearability for home, hospital, or long-term care settings-without sacrificing comfort or confidence.

Features and Benefits

- Maximum Absorbency Core: Provides dryness and protection against leakage.
- Secure Fit: Stretchable waistband allows natural movement with a snug feel.
- Discreet Design: Low-profile look for added confidence in public or home settings.
- Comfortable Wear: Soft material and breathable design support all-day use.
- Reliable Performance: Designed for everyday use, overnight wear, or high-need situations.

Product Specifications

- Weight Range: 100–300 lbs
- Material: Soft, high-absorbency core
- Design: Pull-up style with elastic waist
- Use: Disposable, unisex, adult incontinence care
