

Refillable Ice Bags with Ties

Refillable Design | Built-In Secure Ties | Wide Opening for Easy Filling

Product Overview

Refillable Ice Bags with Ties are transparent ice bags designed for localized cold therapy in clinical and home care settings. The wide opening allows convenient filling and refilling with ice, while the built-in ties help secure the bag over the affected area. The refillable design is intended for continued use by the same patient.

Features and Benefits

- Refillable Design: Allows continued use by the same patient.
- Wide Opening: Supports convenient filling and refilling with ice.
- Built-In Ties: Help secure the bag over the affected area.
- Transparent Construction: Keeps the ice level easily visible.
- Secure Closure: Helps reduce the risk of leakage during use.
- Single-Patient Use: Designed to support appropriate hygiene practices.
- Latex Status: Not made with natural rubber latex.

Product Specifications

- Product Type: Refillable ice bag with ties
- Item Number: SAM-5001
- Design: Transparent and refillable
- Securement: Built-in ties
- Opening: Wide opening for easy filling
- Patient Use: Single-patient use
- Latex Status: Not made with natural rubber latex
