

Splash Mask Face Shields

UltraClear Vision | Anti-Fog Design | Latex-Free Safety

Product Overview

The Splash Mask Face Shield is engineered to deliver unmatched optical clarity and full-face fluid protection in clinical and procedural environments. Featuring dual-sided anti-fog, anti-static, and anti-glare coatings, these latex-free shields ensure clear visibility and safe use even during high-intensity procedures. Lightweight and comfortable, each shield fits securely with either elastic or Velcro straps and is available in vented or solid headpiece options.

Features and Benefits

- Anti-Fog Coating: Prevents visual obstruction in humid or extended use environments.
- Anti-Static Design: Reduces static buildup for added safety.
- Latex-Free Materials: Safe for users with latex sensitivities.
- Crystal-Clear Shield: Maintains sharp visibility for precise work.
- Anti-Glare Surface: Minimizes visual distortion under bright lights.

Product Specifications

- Shield Type: Full or half coverage
- Headpiece Options: Vented or solid
- Strap Type: Elastic or Velcro
- Coatings: Anti-fog, anti-static, anti-glare (both sides)
- Material: Latex-free, fiberglass-free
- Filtration: $\geq 99\%$ @ 0.1 micron
- Packaging: 2 bags/case $\times$ 25 units/bag (50 per case)

Packaging Details

Item No.	Shield	Headpiece	Strap	Qty/Cs
11000-001	Full	Vented	Elastic	48/CS
11000-003	Full	Solid	Elastic	50/CS
